Date To Be Arranged - in response to popular demand I am awaiting confirmation of a date from Angela and Nigel - **Aura World**, who will be bringing along their aura measuring and projection equipment. It is my intention to arrange a number of experiments in order to illustrate the affects of likes and dislikes upon our auras. I also intend to show how a variety of complimentary therapies affect the aura - thus the individual.

Final Comments: -

This is your centre so please support the events that we arrange for your enjoyment, education and well-being. Please tell us what you like and don't like, what you would like more of etc.

Finally - please send this e-mail to everyone in your address book who you think might be interested in visiting us - I am sure that they would rather receive the same e-mail twice than miss out on a life changing event!!!!

I hope to see you soon,
In love and light
Wendy

On behalf of all those who have worked hard for you at the centre during the last committee year.
